

Energyline aims to fulfil its legal and social responsibilities to ensure effective environmental practice in accordance with current legislation. Environmental considerations will be taken into account throughout our process and operations in an effort to reduce and, where possible, eliminate any environmental impacts. We also recognise that we have a role to play in communicating good environmental practice outside our company.

Energyline is committed to:

- Compliance with all legal and other obligations related to our environmental aspects
- Closely monitoring and reporting on all facilities for the prevention/reduction of pollution
- Protection of the environment including the prevention of pollution
- The continual improvement of our IMS to enhance environmental performance
- Ensuring all staff and sub-contractors undertaking activities with potentially significant environmental aspects have the correct environmental training and guidance
- Improving environmental efficiency by undertaking product recycling wherever possible and promoting the recovery and retention of high value natural resources
- Identifying and managing significant environmental risks associated with company activities and putting in place adequate mitigation for the risks
- Requiring that all our subcontractors demonstrate at least the same level of commitment as Energyline to environment management
- Continuously reviewing and improving policy/procedures in accordance with latest legislation and guidelines
- Giving full consideration to the management of our significant environmental impacts
- Always consider environmental performance during the procurement process of materials/products (and implement changes where possible)
- Continuing certification of the updated ISO14001:2015 Standard
- Continued monitoring of our energy usage with the objective of meeting performance targets
- Prepare a roadmap for the business to decarbonise our operations and those of our supply chains we rely on to ensure we continue to thrive in a zero-carbon world.

Signed:

(Managing Director)
